

COURT TRANSCRIPTION: SYLLABUS AND POLICIES

Course Description

In 2014, the Ministry of the Attorney General announced a new model for transcript production in Ontario. This course will teach students the skills and knowledge required to produce transcripts of Ontario in-court proceedings under this new model. This is a Pass/Fail course. Upon successful completion, students will meet the transcript qualification standards set out by the Ministry of the Attorney General and will be eligible to become an Authorized Court Transcriptionist (ACT), in accordance with and pursuant to the Attorney General's Approval and Authorization made under Ontario Regulation 158/03 of the *Evidence Act*.¹

Students will receive interactive, hands-on instruction that consists of live webinars, online videos and demos, and practical exercises that will allow students to apply the skills they learn throughout the course. Students can ask questions and interact with the instructors live via the School's webinar platform or asynchronously through the discussion forum on the learning management system.

The course will be co-taught by two seasoned ACT professionals who have worked for several years in the education, transcription, and court reporting industries.

This program does not require approval under the Private Career Colleges Act, 2005.
